Abstracts

Rice, pasta and noodles is registering moderate retail volume growth in 2023 thanks to the stable performance of rice and pasta. Retail volume sales of noodles, meanwhile, are recording marginal decline due to reduced demand for plain noodles as consumers tend to make less soup. As a result of rising unit prices amidst rampant food inflation and the continued premiumisation of the pasta and rice categories, value sales achieve strong double-digit growth in the year.

Euromonitor International's Rice, Pasta and Noodles in North Macedonia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in directly informs our forecasts to 2027, clearly indicating how the market is expected to change.

Product coverage: Noodles, Pasta, Rice.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Rice, Pasta and Noodles market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and
