## Abstracts

The demographic landscape in Latvia is undergoing a significant shift, with an increasing proportion of the population comprising elderly individuals. This demographic trend is particularly pronounced among single pensioners who often require assistance, including the use of adult incontinence products. As the elderly population grows, there is a corresponding surge in the demand for prescriptions and reimbursements for adult incontinence products, reflecting the essential role these products pl...

Euromonitor International's Rx/Reimbursement adult incontinence in Latvia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth.
