## Abstracts

Xiaomi, TCL and Oppo are aggressively expanding into overseas markets and enjoy tremendous success. However, these brands tend to be popular with consumers due to their low prices. What can Chinese brands do to shed the negative perception of low quality and a cheap brand image.

Euromonitor International's Six ways Chinese brands can move up the value chain global briefing offers insight on emerging geographies, key growth categories and trends as well as pressing industry issues and white spaces. It identifies the leading companies and brands, and offers strategic analysis of key factors influencing the market – be it new product developments, economic/lifestyle influences, distribution or pricing issues. From the latest innovations such as Smartphones, Ultrabooks and OLED TVs to existing technologies such as Laptops, Home Audio and Cinema Systems and In-Car Entertainment, Euromonitor International offers a consistent yet incisive snapshot of the Consumer Electronics industry. Forecasts illustrate how the market is set to change and the criteria for success over the next five years.

**Product coverage:** Computers and Peripherals, In-Car Entertainment, In-Home Consumer Electronics, Portable Consumer Electronics.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
