Abstracts

Many Spaniards are currently in the process of changing their eating habits to embrace healthier diets. This means increasing consumption of tea and vegetable soup and the general substitution of boiling with other cooking methods. This sustained demand for kettles in 2015, with the category increasing in volume by 7% and in current value by 9%, with growth driven by the increasing focus on design.

Euromonitor International's Small Kitchen Appliances (Non-Cooking) in Spain report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2011-2015, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, format trends or distribution issues. Forecasts to 2020 illustrate how the market is set to change.
