Abstracts

Smokeless tobacco was not historically prevalent in Azerbaijan and mainly used by people as a tobacco alternative with reduced health risks, whereas new vapour products boosted sales in the review period. During this time a growing number of retail outlets offered vapour products, replicating global vapour trends locally, and the structure of vapour products changed from closed in favour of open vaping systems.

Euromonitor International's Smokeless Tobacco and Vapour Products in Azerbaijan report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2013-2017, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be the new legislative, distribution or pricing issues. Forecasts to 2022 illustrate how the market is set to change.
