Abstracts

The primary positioning for vapour products in Bosnia-Herzegovina that appeals most to consumers is affordability. Few consumers originally start to vape for health considerations; however, once they begin vaping, other considerations than affordability emerge. Most notably, at the end of the review period, there was soaring availability and a range of hardware upgrades targeting seasoned vapers that have come to understand the value of superior batteries, larger tanks or modular power outputs.

Euromonitor International's Smokeless Tobacco and Vapour Products in Bosnia-Herzegovina report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2013-2017, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be the new legislative, distribution or pricing issues. Forecasts to 2022 illustrate how the market is set to change.
