Abstracts

Smokeless tobacco and vapour products saw rapid growth in volume and value in 2017, driven mainly by the growth of open vaping systems, which benefit from improved availability and the growing variety of flavours consumers can smoke. Vapour products are enjoying rising popularity as they are perceived to be fashionable to smoke and are considered less harmful than regular cigarettes. In addition, smokers trying to quit smoking find it easier in the beginning to replace cigarettes with vapour pro...

Euromonitor International's Smokeless Tobacco and Vapour Products in Czech Republic report offers a comprehensive guide to the size and shape of the market at a national level.
