## Abstracts

Vapour products, especially open vaping systems, have grown in popularity among younger consumers around the age of 25. This can be attributed to their convenience, largely due to not needing to purchase products daily when compared to cigarettes, and the widespread availability and different flavours of e-liquids. However, older consumers tend to be more conservative, thus sticking with traditional cigarettes.

Euromonitor International's Smokeless Tobacco and Vapour Products in Slovakia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2013-2017, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be the new legislative, distribution or pricing issues. Forecasts to 2022 illustrate how the market is set to change.

**Product coverage:** Smokeless Tobacco, Vapour Products.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
