Date: July 2018

Pages: 19

Price: US\$ 990.00 (Single User License)

ID: S342A255AA3EN

Abstracts

Smokeless tobacco will see volume declines during the forecast period. Moist snuff, which primarily caters to men and women from low-income and rural backgrounds, is expected to see its consumer base reduced, as it and its consumption is generally increasingly considered old-fashioned by urban dwellers. Moist snuff is expected to remain a negligible category in Tunisia during the forecast period, largely due to limited product availability and decreasing consumer demand.

Euromonitor International's Smokeless Tobacco and Vapour Products in Tunisia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2013-2017, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be the new legislative, distribution or pricing issues. Forecasts to 2022 illustrate how the market is set to change.
