Abstracts

In 2023, snacks in Finland are being impacted by inflation and rising production costs, which are being passed on to consumers through increasing price points. While price rises are boosting current retail value growth, pressure is being placed on volume sales as consumers adapt their budgets in the face of shrinking disposable incomes. Despite this, many areas in snacks are proving to be resilient, with current retail volume sales continuing to grow in all main areas, while smaller categories s...

Euromonitor International's Snacks in Finland report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere.
