Abstracts

Soft drinks continued to be affected by high inflation, which started in 2022 and continued in 2023, leading to cost of living increases. The worsened economic situation saw demand fall in established categories, especially juice and carbonates, while total volume sales of bottled water were largely stable. Meanwhile, concentrates witnessed a decline in demand through 2023. However, this was not due to the worsened economic situation, but rather Czech customers turning away from concentrates. In...

Euromonitor International's Soft Drinks in Czech Republic report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2018-2022), allowing you to identify the sectors driving growth.
