Abstracts

The usage of PET bottles was increasing over the review period, with volumes used also expected to continue increasing over the forecast period. This is because PET bottles are seen as a very capable pack type in terms of being flexible enough to be moulded into any shape as well as being more durable and more cost-effective than glass bottles, for example. In addition, the new government regulations that will be putting restrictions on single-use plastic production, consumption and waste, do no...

Euromonitor International's Soft Drinks Packaging in Canada report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
