Abstracts

Sports nutrition is expected to be the star performer in 2023, with double-digit constant value growth. The consumer base is widening and demand for sports nutrition is now not only confined to body building, but also for sports enthusiasts who participate in endurance sports, such as long distance running and cycling, and are looking to improve their performance. That being said, value sales for sports nutrition are still low and products are considered expensive and players frequently offer di...

Euromonitor International's Sports Nutrition in Georgia report offers a comprehensive guide to the size and shape of the market at a national level.
