Abstracts

Sports nutrition continues to benefit from the full opening of society post pandemic lockdowns, with people being more active and attending gyms once again. As such sports nutrition is expected to register healthy constant value and volume growth in 2023. That being said, there are significant price rises, partly due to a shortage of creatine, as well as continuing high inflation. However, consumers of sports nutrition products are mainly higher income consumers and are less sensitive to price...

Euromonitor International's Sports Nutrition in Uruguay report offers a comprehensive guide to the size and shape of the market at a national level.
