Abstracts

Within staple foods in Argentina, retail volume sales overall are seeing only marginal growth. While the prevailing economic turmoil is partially responsible for this, an array of additional factors is contributing to adverse effects on both supply and demand vectors. Notably, a severe drought has taken a toll on the production of pivotal commodities such as rice, engendering a sporadic supply chain and surging prices that have escalated well beyond the average inflationary trajectory. The reper...

Euromonitor International's Staple Foods in Argentina report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
