Abstracts

In 2023, the foodservice industry has shown further signs of recovery, leading to stabilised sales of staple foods, while retail sales have reverted to pre-pandemic patterns. However, due to global political and economic instability, Denmark has experienced elevated inflation while production costs have risen thereby putting upward pressure on unit prices. This has led to increased price sensitivity among many consumers in Denmark, with there being a general increase in the cost of living. This...

Euromonitor International's Staple Foods in Denmark report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
