Abstracts

Overall, 2023 was a challenging year for the staple foods sector in Italy, characterised by stagnation in retail sales volumes. However, the market saw considerable current value growth driven by persistent inflationary pressure. During the second half of the year, the rate of inflation started to decrease, but many staple foods categories showed further price increases. This trend poses challenges for consumers, who are faced with more spending on staple food purchases. Remaining inflationary p...

Euromonitor International's Staple Foods in Italy report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
