## Abstracts

In 2023, the Kenyan staple foods market is navigating through a period of high food inflation, leading to significant increases in unit prices. This economic environment has prompted consumers to prioritise essential grocery items while curtailing impulse buys and non-essential purchases. The country's prolonged drought has exacerbated this situation, contributing further to the escalating food prices. Bread, a fundamental staple, has experienced notable unit price increases, primarily due to th...

Euromonitor International's Staple Foods in Kenya report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
