## Abstracts

Sugar confectionery is showing strong value sales and moderate volume sales in Kazakhstan in 2024. While value is being driven by high prices caused by inflationary pressures, supply chain challenges regarding raw materials have been resolved, which helps to support the category overall. We also note that prices between chocolate confectionery and sugar confectionery are not significantly different, so we are not seeing any notable trends in switches between the two.

Euromonitor International's Sugar Confectionery in Kazakhstan report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
