## Abstracts

Within overall eyewear, sunglasses was the hardest hit during the lockdowns in Australia, recording notable declines in both retail volume and value terms in 2020. However, apart from a marginal drop in 2022 following a strong rebound the previous year, demand for sunglasses is once again improving in 2023, in line with the reopening of the Australian economy.

Euromonitor International's Sunglasses in Australia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2018-2022), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
