Abstracts

Latin America has among the largest forest and biodiversity availability in the world, but poor environmental protection and rapid forest loss threatens the region's biomes. Many regional countries lead in sustainable energy sources, especially hydro energy, but clean energy is not available to everyone. Increasing exposure to natural disasters is a particular concern given the vast populations concentrated in coastal areas.

Strategy Briefings offer unique insight into emerging trends world-wide. Aimed squarely at strategists and planners, they draw on Euromonitor International's vast information resources to give top line insight across markets and within consumer segments. Written by some of our most experienced analysts, they are designed as provocations for senior management to use in their own forum, allowing them to stand back and reflect on the behaviour and motivation driving global markets today and tomorrow

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report

Identify factors driving change now and in the future

Understand motivation

Forward-looking outlook

Briefings and presentation should provoke lively discussion at senior level

Take a step back from micro trends

Get up to date estimates and comment

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems. With offices in London, Chicago, Singapore, Shanghai, Vilnius, Dubai, Cape Town, Santiago, Sydney, Tokyo and Bangalore and a network of over 800 analysts worldwide, Euromonitor International has a unique capability to develop reliable information resources to help drive informed strategic planning.
