## Abstracts

Over half of consumers in the Netherlands try to have a positive impact on the planet, shaping sustainable purchasing decisions. This leads to over 50% of consumers reducing food waste and plastic use, while locally sourced recyclable goods would be well-received by locals. Recycling claims can be improved across industries, driving sales as over 50% of consumers trust recyclable labels. Over a third of consumers are Meat Avoiders, creating positive opportunities for Plant-based, Vegetarian and...

Euromonitor International's Sustainability reports allows to hear the voice of the industry by exploring specific industry related trends, business campaigns, and attitudes and expectations for sustainability from industry leaders in 5 regions. Reports monitor the levels of sustainability adoption across countries and product categories. Reports also allows to discover where companies and brands lead in terms of a sustainable product portfolio and which ones are falling behind. Use it to learn more about consumers' evolving attitudes, expectations and adoption of sustainability across key global markets.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Sustainability market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
