## Abstracts

As the organic space is maturing, companies are looking for new ways to leverage consumers' ethical concerns and add value. Although the dairy industry has positioned itself as responsible and sustainable, it has recently been challenged by milk alternatives, and criticised for the climate impact of dairy farming. This report highlights efforts in sustainable dairy, a term encompassing organic, local production, free range, non-GMO, sustainable packaging, farmer support and other similar efforts...

Euromonitor International's Sustainable Dairy: Trends and Growth Opportunities global briefing offers an insight into to the size and shape of the Packaged Food market, highlights buzz topics, emerging geographies, categories and trends and identifies the leading companies and brands. It also offers strategic analysis on driving packaged food industry trends like health and wellness, premiumisation, convenience and value-for-money and how those trends influence factors like new product developments, packaging innovations, retail distribution and retail pricing both historically and into the future.

**Product coverage:** Cooking Ingredients and Meals, Dairy Products and Alternatives, Snacks, Staple Foods.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.

## Why buy this report?

Get a detailed picture of the Packaged Food market;
