Abstracts

Although other pack types are used in the packaging of jams and preserves, such as thin wall plastic containers, other plastic jars and metal tins, glass jars continue to be the dominant packaging format in this category. Glass jars have been traditionally linked with jams and preserves packaging, and continue to be favoured by brands because they are transparent, allowing customers to inspect the contents before purchasing to ensure the consistency, colour and other characteristics of the jam o...

Euromonitor International's Sweet Spreads Packaging in Germany report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
