Abstracts

While thin wall plastic containers and glass jars remained the most popular packaging types for sweet spreads in Romania at the end of the review period, the niche of other rigid containers continued to record strong growth within chocolate spreads. Firstly, these containers offer airtight seals, ensuring the preservation of the product's freshness and flavour over an extended period, which is especially important for sweet spreads.

Euromonitor International's Sweet Spreads Packaging in Romania report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Chocolate Spreads, Honey, Jams and Preserves, Nut and Seed Based Spreads, Yeast-based Spreads.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
