Abstracts

Sweet spreads packaging volumes witnessed an increase in 2022 over the previous year, when volume sales declined. The pandemic initially drove up demand for sweet spreads and associated packaging in 2020 due to home seclusion, as it gave rise to increasing snacking occasions and sweet spreads represented a convenient and comforting snack. However, in 2021, as the category normalised and consumers began to question their sugar intake in line with rising health consciousness, volume sales fell. In...

Euromonitor International's Sweet Spreads Packaging in Mexico report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
