Abstracts

Albeit growing from a small base in Thailand, consuming chocolate spreads with bread has been increasing in popularity, particularly among children. In addition, the range of such products that are available in various retail channels has been widening. PET jars and thin wall plastic containers are the most widely used pack types in chocolate spreads in Thailand due to a combination of practicality and consumer preferences. These rigid plastic pack types are lightweight, reducing transportation...

Euromonitor International's Sweet Spreads Packaging in Thailand report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
