Abstracts

Australian apparel and other textile producers enjoyed continued growth in production in 2018, supported by solid growth in household incomes, decreasing unemployment and improving consumer confidence. In 2018, GDP saw real growth of 2.4%, leading to higher household incomes. On average, Australian household expenditure on clothing and footwear grew faster than production value, contributing to the strong performance of the domestic textile industry.

Euromonitor International's Industrial reports provide a 360 degree view of an industry. The Industrial market report offers a comprehensive guide to the size and shape of the Textile and Leather Products market at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts illustrate how the market is set to change.
