Abstracts

In 2022, retail tissue and hygiene in Germany experienced a significant increase in current value terms, following marginal growth in the previous year. Away-from-home tissue and hygiene also saw slightly higher current value growth than in the previous year. Strong value growth was mainly driven by the rising costs of raw materials and production, and inflation. However, as inflation reached over 10% in September 2022, consumer confidence rapidly decreased, leading consumers to shift towards mo...

Euromonitor International's Tissue and Hygiene in Germany report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth.
