## Abstracts

In 2023, tissue and hygiene in Germany experienced a persistent increase in value following significant growth the previous year. This continued growth was mainly driven by the sustained rising costs of raw materials and production. Despite a lower inflation rate compared to 2022, consumer prices in Germany continued to increase in 2023. The cost of energy showed signs of easing and food prices continued to slow, although they remained above overall inflation. Consumer confidence remained conser...
