Abstracts

Tissue and hygiene in Indonesia recorded positive growth in all categories in 2023, with both volume and current value sales rising as the country's economy strengthened even in the face of global uncertainty. Domestic economic growth was buoyed by robust local demand and year-on-year increases in household consumption, driven by enhanced mobility, stable purchasing power, and sustained consumer confidence. The post-pandemic return to pre-pandemic patterns further bolstered the economy, with not...

Euromonitor International's Tissue and Hygiene in Indonesia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth.
