Abstracts

Tissue and hygiene in Slovenia experienced significant growth in 2023 driven by heightened health and hygiene awareness among consumers. With ongoing concerns about cleanliness and sanitation, individuals are prioritising products such as wipes, tissues, and paper towels to maintain personal and environmental hygiene standards. This increased emphasis on cleanliness stems from various factors, including the lingering effects of the COVID-19 pandemic, which have underscored the importance of hygi...

Euromonitor International's Tissue and Hygiene in Slovenia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, distribution or pricing issues.
