Abstracts

Concerns surrounding rising interest rates, inflationary pressures, loadshedding and supply chain constraints were the focus in 2023, influencing the performance of tissue and hygiene in South Africa. However, overall inflation in the country decreased to 5.4% in June 2023, which was significantly lower than the previous year. On the other hand, persistent loadshedding, accompanied by supply chain constraints caused by back logs at key ports within the country, resulted in a harsh economic clima...

Euromonitor International's Tissue and Hygiene in South Africa report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.
