Abstracts

Domestic tourism in Norway grew by 1% in 2013 in terms of number of trips, as it was affected by lower prices of hotels, flights and holiday packages in foreign countries. Even though the Norwegian krone depreciated in 2013 compared to the Euro, it continued to be strong which gave Norwegian consumers more value for money when travelling to outbound holiday destinations.

Euromonitor International's Tourism Flows Domestic in Norway report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2009-2013, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2018 illustrate how the market is set to change.
