Abstracts

Outbound tourism performed well in 2013 with an increase of one percentage point as compared to 2012, with travel mostly recorded to short-haul regional destinations. As the Singapore dollar is stronger, higher spending power due to the exchange rate encouraged more outbound travel to regional countries, as well as international destinations, mostly in Europe.

Euromonitor International's Tourism Flows Outbound in Singapore report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2009-2013, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2018 illustrate how the market is set to change.
