Abstracts

In 2013, departures continued its decline from the previous year to register -3% in the number of outgoing trips. Such a decrease in number of trips can be explained by the continued economic difficulties in Europe. However, tourist expenditure recorded 5% growth in 2013 to reach €1.2 million. Such an increase in expenditure showed that consumers who were travelling were willing to spend more in order to have quality or even luxury holidays.

Euromonitor International's Tourism Flows Outbound in Slovenia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2009-2013, allowing you to identify the sectors driving growth.
