## Abstracts

Tourist attractions continue to account for a minor fraction of tourist expenditure in the country (less than 1% of total domestic expenditure and incoming tourist receipts in 2013). Ticket prices in many tourist attractions are still considered cheap, especially for foreign tourists from more mature countries with high disposable incomes. However, rising disposable incomes in the country are also fuelling growth, especially for non-traditional attractions such as water theme parks and...

Euromonitor International's Tourist Attractions in Indonesia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2009-2013, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2018 illustrate how the market is set to change.
