Abstracts

A very high inflation rate in Romania in 2022 was reflected in strong price increases and even faster retail current value growth, compared with the double-digit increments already witnessed through the review period. Whereas premiumisation was a key trend in the industry across the review period, some budget-conscious consumers turned to cheaper products. In general, Romanian consumers hunted more actively for special offers and discounts when purchasing toys and games. Consequently, alongside...

Euromonitor International's Toys and Games in Romania report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth.
