## Abstracts

Rising revenue from freight and logistics services formed the primary engine for the industry's growth in 2018, as more goods had to be handled due to rising economic and trade activities in the country. The economy was stimulated by rising private investments as well as improving logistics infrastructure. Also, in the first half of the year the country actively traded with foreign partners, and over the year its imports and exports respectively hiked by 20.2% and 6.7%. As a result, the country'...
