Abstracts

The sustained growth of travel and tourism flows was behind the positive performance of transportation in 2013. Domestic tourism increased by 9% in terms of the number of trips while outbound trips increased by 6%. This supported growth of air transportation, which increased by 8% in terms of the number of passengers and by 7% in current value terms. Strong macroeconomic conditions supported Chile's economic stability, which in the case of Chilean tourists allowed them to finance holidays in...

Euromonitor International's Transportation in Chile report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2009-2013, allowing you to identify the sectors driving growth.
