Abstracts

Growth in transportation in Switzerland during 2013 was driven by the positive performances recorded in both air transportation and other transportation, with each category increasing in current value by 3% over the course of the year. In addition, air transportation remained the largest transportation category in Switzerland during 2013 in terms of both the number of people carried and total value sales. This can be attributed mainly to the high number of passengers carried at all of...

Euromonitor International's Transportation in Switzerland report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2009-2013, allowing you to identify the sectors driving growth.
