Abstracts

Continuous restricted access to foreign currency, combined with strong inflation during the second semester of 2013 led to an increase in the number of outbound passengers. The large gap between the official exchange rate and the black market encouraged Venezuelans to travel abroad in order to have access to subsidised foreign currency that can be later exchanged at the black market rate, which can be six to eight times higher.

Euromonitor International's Transportation in Venezuela report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2009-2013, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2018 illustrate how the market is set to change.

Product coverage: Transportation by Category, Transportation by Channel.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
