Abstracts

Tourism flows are showing a strong increase in 2023 on both a domestic and international level. Despite the impact of inflation on disposable incomes and travel prices increases, consumers are not willing to cut down on their spending as they seek to make up for the lost travel experiences during the COVID-19 pandemic. The lifting of travel restrictions has contributed to the recovery of international travel, both from Greek residents and inbound travellers. The impact of the war in Ukraine rema...

Euromonitor International's Travel in Greece report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2027 illustrate how the market is set to change.
