Abstracts

The initial impact of the COVID-19 pandemic's subsequent lockdown in Serbia began in mid-March as the government enforced restrictions and the country's land borders were closed and flights were grounded. All hotels and retail outlets, including travel agencies and car rental facilities were closed, and consumers remained largely restricted to their homes except in cases of essential movement. These conditions effectively halted tourism operations altogether, which remained in place through Apri...

Euromonitor International's Travel in Serbia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2015-2019, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2024 illustrate how the market is set to change.
