Abstracts

The tourism industry in Switzerland was strongly affected by the COVID-19 crisis over the 2020-2022 period. In 2023, the behaviour of travellers is expected to return to normal to a large extent. 2023 started with a positive winter season. Despite unfavourable weather conditions, more overnight stays were booked than in the previous year. The destinations affected by the warm weather and lack of snow created alternative offers such as wellness options and thermal baths, as well as snow-independe...

Euromonitor International's Travel in Switzerland report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: Booking, In-Destination Spending, Lodging (Destination), Tourism Flows, Travel Modes.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
