Abstracts

The Czech Republic suffered effects of the global financial crisis in 2009: it caused a full-blown recession and impacted businesses as well as individuals throughout the year. The downturn was especially severe as it came unexpectedly, after several years of strong and steady growth. Companies began to lose business, needed to reduce costs and were, thus, forced to downsize staff. Increased unemployment rate and lower consumer spending resulted in decreased profits. The first signs of...

Euromonitor International's Travel And Tourism in Czech Republic report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2005-2009, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2014 illustrate how the market is set to change.
