Abstracts

Belize, like many other countries in the region, was significantly affected by the recession of 2009. However, both the economy and the travel and tourism industry began to show signs of recovery in 2010, with GDP growth of 2% and an increase in arrivals of 3%, while in 2011 GDP grew 2% and arrivals 4%. As tourist arrivals increased, other travel and tourism categories, such as transportation, travel accommodation, tourist attractions and travel retail, also began to recover.
