## Abstracts

Lugazi and Kampala are Uganda's most economically vibrant cities. The cities' economic strength is partially supported by higher consumer expenditure and more extensive digitalisation, compared to the other Ugandan cities. Nevertheless, Mbarara holds the greatest potential for future economic growth. However, challenges for the country's cities will persist – such as increasing global inflation, and in the longer run, burdens on cities' infrastructure, due to large and increasing populations.

Euromonitor International's City Review reports analyse key trends and developments in 126 world's major cities. They provide localised city information in terms of economy, consumer lifestyles, housing and transport and city environment and offer valuable insights for strategic planning.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.

## Why buy this report?

Get a detailed picture of the Cities market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research

reports, business reference books and online information systems.
