Abstracts

Millennial parents are changing the way they raise their children compared with previous generations. These changes, whether they are career-driven, health-conscious or equality-focused, are affecting how they spend their money and make purchasing decisions, as well as affecting the opinions and environment in which future generations grow up.

Strategy Briefings offer unique insight into emerging trends world-wide. Aimed squarely at strategists and planners, they draw on Euromonitor International's vast information resources to give top line insight across markets and within consumer segments. Written by some of our most experienced analysts, they are designed as provocations for senior management to use in their own forum, allowing them to stand back and reflect on the behaviour and motivation driving global markets today and tomorrow
