Abstracts

Population expansion in the United Arab Emirates in 2021-2040 will be slower than in previous decades due to net migration being low or negative. However, nearly nine in ten people will be foreign citizens in 2040 as reliance on foreign labour continues. Ageing will affect consumer trends as well as creating financial, social and health challenges. Dubai will continue to dominate the urban landscape.

Euromonitor's United Arab Emirates in 2040: The Future Demographic report analyses factors influencing national consumer expenditure. Consumer lifestyles reports include coverage of: population, urban development, home ownership, household profiles, labour, income, consumer and family expenditure, health, education, eating habits, drinking habits, shopping habits, personal grooming, clothing, leisure habits, savings and investments, media, communication, transport and travel and tourism. Use this report to understand the factors influencing a nation's lifestyle choices.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Consumer Lifestyles market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
